

Current Diving

Hosted by the Beadle County Dive Team & PFD Rescue Dive Team

Pierre, SD ~ May 21-23, 2010

This program is designed to maximize diver safety and demonstrate proven search methods in the challenging and dangerous current diving environment. Participants will learn swiftwater hydrology, self help techniques, operational planning and will be exposed to specialized equipment and techniques necessary to dive effectively and safely in current.

Course Topics

- Hydrology and Dynamics of Moving Water
- Scene Evaluation
- Preplanning Current Diving Operations
- Self Rescue Techniques
- Rescue Procedures for Surface Support
- Selection of Specialized Equipment
- Search Techniques
- Search Patterns in a Current
- Handling Panic and Stress
- Practical Scenarios

NFPA Standards 1670 & 1006

Upon completion of this program, including in-water work, personnel will address several standards set forth for the Technician Level. Surface Support personnel who complete this program will address the standards set forth for the Awareness and Operations Level.

Tuition Full tuition for this 3 day program is \$420.00 in US funds. Payment is required at the time of registration.

Travel We do not recommend you make travel arrangements until 2 weeks prior to the start of class.

Prerequisites All students must be a current member of a public safety agency and at least 18 years of age. All diving personnel must provide proof of Dive Rescue I or Underwater Crime Scene Tech I certification and must read and complete a RSTC Medical Statement prior to attending class. Any diver answering yes to a contraindication is required to have a physician sign page 2 of the form. Please make sure to present your RSTC Medical Statement to your instructor at the beginning of class. Find this form on the training page of the website or call 800-248-3483. *Students must attend and successfully complete all classroom and practical sessions.
