

2005 Kawasaki Mule Diesel

\$9500.00

Pierre Rural Fire Department is selling a 2005 Kawasaki Mule equipped with a BG Fire Equipment slide in. The Mule has only 114 hours total usage and is being sold setup to be in service. The only thing missing is a radio.

Mule:

- 3 cylinder diesel fuel injected engine, 953cc
- Continuously variable CVT transmission
- Selectable for 4x2 or 4x4 operation with low range
- Pierre Rural had the aluminum roof made for the unit
- Limited slip differential with differential lock
- Light bar and controller included

Slide in unit:

- 80 gallon Poly water tank, using ½ poly
- Wickman 100-4H 2.5 HP pump
- Honda 4 stroke GXH 50 engine
- The suction is 1 ½ NPSH with discharge of 1 ½ NPSH.
- Guzzler priming system
- Has a foam injection, foam system with storage compartment for a 5 gallon foam tank
- Hose reel with electric rewind and 50' capacity of ¾ Reeltex hose
- Hard suction, hose reel hose, and booster all included. As well as nozzles.

Trailer:

- Tandem axle flat bed car trailer
- Removable steel ramps with storage compartment at rear of trailer
- Lockable storage on front of trailer
- Collar- lock coupler on trailer.
- Tie down straps included.

The Mule, Skid, and trailer are being sold as a package deal. These are recently taken out of service get them ready for sale. Please contact Randy Mcfarling at 605-222-3947 to view, see a demonstration, or any additional questions you may have.
