

Active Shooter Workshop

May 23, 2013 • King's Inn Hotel and Conference Center
110 East Sioux Avenue, Pierre, SD 57501

THIS IS NOT A TACTICAL TRAINING COURSE

Given today's ever-changing threat environment, preparing for and training employees to cope with workplace violence should be a key piece of an organization's incident response planning.

A Unique Training Opportunity

The King's Inn Hotel and Conference Center and the National Protection and Programs Directorate Office of Infrastructure Protection within the U.S. Department of Homeland Security, are hosting a one-day Security Workshop to enhance awareness of, and response to, an active shooter event:

- Educating participants on the history of active shooter events;
- Describing common behavior, conditions, and situations associated with active shooters; and
- Fostering communication between infrastructure owners and operators and local emergency response teams—this includes discussion of interoperability, communications protocols, and best practices for planning, preparedness, and response.

Building Emergency Planning Capabilities

The event will describe how to incorporate key elements of successful incident management into planning efforts, such as:

- Communicating with and accounting for employees;
- Building familiarity with local responders and knowing their capabilities;
- Coordinating with first responders before, during, and after an incident; and
- Integrating public affairs into incident management.

Registration

- Registration for this event is free. [Click Here to Register](#).
- Registration closes May 20, 2013 at 11:59PM (EDT).
- Limited seating is available; 2 slots per organization only.
