HOMELAND SECURITY

Automated Critical Asset Management System (ACAMS)

When: April 26-29, 2011

Where: Law Enforcement Training Center
1302 E. Highway 14, Suite 5
Pierre, SD 57501-8505

What time: 8:30am – 4:00pm daily

Description:

The Automated Critical Asset Management System (ACAMS) is a Web-enabled information services portal that helps state and local governments build critical infrastructure/key resource (CIKR) protection programs in their local jurisdictions.

ACAMS provides a set of tools and resources that help law enforcement, public safety, and emergency response personnel

- Collect and use CIKR asset data,
- Assess CIKR asset vulnerabilities,
- Develop all-hazards incident response and recovery plans, and
- Build public-private partnerships.

Using ACAMS also provides state and local jurisdictions with a practical way to implement the [National Infrastructure Protection Plan \(NIPP\)](#), including the NIPP Risk Management Framework.

Interested individuals should contact the Office of Homeland Security at 773-3450.
