Introduction

The Grantee Guidelines document was created by the Victims' Services Program to assist organizations who are funded with Victims' Services funds, in creating policies and procedures which are in compliance with federal rules and regulations, state laws, state administrative rules, and other requirements established by the Victims' Services Programs.

There have been numerous updates to the Grantee Guidelines that organizations should reference. Victims' Services has also added policy checklists to help organizations determine what policies and procedures they should have in place and what will be evaluated at annual reviews. It is helpful to use the checklist and review current policies and procedures and check mark items off the list after located in the organizational policies. If you have questions about if your policy contains all aspects of what is required within a certain policy, that policy is further explained in each section whether it is Personnel, Fiscal, Volunteer, etc.

One large change in VOCA Emergency Services is the allowability to now request reimbursement for assisting victims with staying in their homes. The previous cap of \$500 maximum/client per year has been increased to \$1,000/client/year. **However, rental deposits and utility deposits are now unallowable.**

Another addition/requirement of subgrantees receiving Victims' Services funding for personnel/payroll is the requirement of a perjury statement. Please refer to **Payroll Payment Process** for more information.

The hourly match rate from \$24.69/hour has increased to \$25.43/hour. This is for individuals who provide crisis line coverage or volunteer services during non-office hours and those individuals who provide unskilled labor.

This has been a developing document over the previous years to combine all of the information that subgrantees and organizations should be aware of into one location. This is meant to be used as a tool to assist in enhancing services and to make options and evaluations of domestic violence and sexual assault programs more effective. If there are further questions, please contact the Victims' Services Program for additional guidance.

With the changes, Victims' Services began utilizing a new grants management system referred to as MAVIS (Managing Assistance for Victims Services). MAVIS will have its own user manual.

For the purpose of this document, all subgrantees using and receiving Victims' Services funding will be referred to as "organizations."

Grant Eligibility Guidelines

To be eligible to receive Victims' Services funding, an organization must:

- Be a public or non-profit organization that provides direct services to victims of crime.
 - To receive SASP funding, organizations must be a non-profit, non-governmental that provides direct services to victims of sexual assault crimes.
- Have a history of providing effective direct services to victims of crime.
- Have the support and approval of its community as evidenced through letters of support provided during application process.
- Have a history of providing direct services in a cost-effective manner.
- Be able to meet the program match requirements, using non-federal funds committed for direct victims' services.
- Utilize volunteers in the provision of services. The State may determine if there is a compelling reason to waive this requirement.
- Promote, within the communities served, a coordinated approach to serving victims of crime that minimizes duplication of effort and contributes to better and more comprehensive services to crime victims. Coordination may include, but is not limited to serving on State, federal, local, or Native American task forces, commissions and/or working groups and developing written interagency agreements.
- Assist eligible victims of crime with information about and access to Crime Victims' Compensation (CVC) Program benefits. This assistance includes referring identifying crime victims and advising them of the availability of CVC benefits, assisting eligible victims with CVC application forms and procedures, obtaining necessary documentation, monitoring claim status, and intervening on behalf of victims who have applied for assistance from the CVC program.
- Comply with applicable provisions of the Victims' Services Guidelines, the Office of Justice Programs Financial Guide, and the Office of Violence Against Women Financial Grant Management Guide. This includes maintaining appropriate programmatic and financial records that fully disclose the amount and disposition of funds received. For example, financial documentation for disbursements, daily time and attendance records specifying time devoted to allowable victims'

services, client files other sources of revenue that support any portion of victims' services, job descriptions, contracts for services, other records which facilitate an effective audit, records retention, and compliance with monitoring and/or audit activities and requirements.

- Maintain statutorily-required civil rights information on victims served by age, disability and/or handicap, sex gender identity (or expression), sexual orientation, pregnancy, race, color, national origin and religion.
- Permit reasonable access to organization books, documents, papers, and records to determine whether the recipient is complying with applicable civil rights laws.
- Provide services to victims of Federal crimes on the same basis as victims of State crimes.
- Provide a variety of services and assistance to victims of crime.
- Provide services through the funded program at no charge to victims.
- Maintain confidentiality of client information.
- Prohibit policies that deny individuals access to services based on their relationship to the perpetrator.
- Prohibit policies and practices that impose restrictive conditions to be met by the victim before they can receive services.

Ineligible Organizations

Organizations and activities are not eligible to receive funding if they:

- Focus primarily on lobbying or raising public awareness.
- Primarily crime prevention agencies, organizations or programs.
- Organizations or programs in which victims of crime are not the sole or primary beneficiaries (e.g., witness management or witness notification programs).
- Federal agencies, including U.S. Attorney's Offices.
- In-patient facilities designed to provide treatment to individuals with drug, alcohol and/or mental health related conditions.
- Applicants that provide both victim and witness programs are eligible for funding, but only for that portion of their activities that directly serves victims of crime.

Grant Overviews

VOCA

The Victims of Crime Act was passed by Congress in 1984. The Act established a Crime Victims Fund in the U.S. Treasury to collect fines from convicted federal criminals and use those monies to assist people who have been victimized by crime. A portion of the Fund is awarded annually in grants to states, which then sub-grant funding to agencies that provide direct services to crime victims. This annual allotment varies, depending on the amount of money collected by the U.S. Department of Justice (DOJ).

Primary Purpose

- To provide direct assistance to innocent victims of violent crime throughout the nation.
- To assist victims of crime as soon as possible after the crime occurs, to reduce the severity of the psychological consequences of the victimization.
- To demonstrate ongoing support for victims in coping with the impact of victimization.

Organizations receiving VOCA funds must also:

- Use volunteers to support services paid for with VOCA funds.
- Maintain substantial financial support from sources other than VOCA. At least 25 percent of the agency's funding in the year of, or the year preceding an award must come from other sources, which can include other federal funding programs.
- Provide effective services to victims of crime and support from sources other than VOCA.
- Provide information about the Crime Victims Compensation (CVC) Program and where to get assistance in applying. Federal VOCA funding includes monies specifically to provide compensation to victims of crime and secondary victims of crime through the CVC Program. Individuals who receive support from agencies through any South Dakota Victims' Services grant-funded programs also may be eligible for assistance through the CVC Program, which can help to cover longer-term costs such as medical and mental health expenses and lost wages.

Match Requirements (cash or in-kind, or a combination of both)

- 20% of the Total Project Budget for existing and new organizations
- 5% of the Total Project Budget for organizations located on a reservation

VOCA funds cannot be used to cover any costs not directly related to service delivery for victims of crimes. Additionally, organizations cannot use VOCA funds for any of the following:

- **Direct payments to victims or any dependents**
- Activities that directly benefit the offender/perpetrator
- Construction costs
- Food for staff and/or Board meetings and trainings
- Immigration fees
- Late fees
- Mortgage payments

- Stipends to volunteers or crisis line advocates
- Victim property loss
- Visitation Center services (Visitation Center staff expenses can only include direct service time spent with clients outside of the visit)

VOCA funds must be expended for providing direct services to victims of a violent crime.

FVPSA

The Family Violence Prevention and Services Act (FVPSA) is funded through the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Community Services (ACF).

Primary Purpose

- To prevent incidents of family violence, domestic violence, and dating violence.
- To provide immediate shelter, supportive services, and access to community-based programs for victims of family violence, domestic violence, or dating violence and their dependents.
- To provide specialized services for children exposed to family violence, domestic violence, or dating violence, underserved populations, and victims who are members of racial and ethnic minority populations.

Priority

- Not less than 70% of the State's total FVPSA funds must be distributed for immediate shelter and related assistance to victims of family violence and their dependents, dating violence, and domestic violence.
- Not less than 25% of the State's total FVPSA funds must be distributed for the primary purpose of providing supportive and prevention services.

Match requirements (cash or in-kind, or a combination of both)

- 20% of the Total Project Budget.

FVPSA Allowable Costs

- FVPSA funds must be expended only for providing **direct services** to victims of family violence, domestic violence, and dating violence and their dependents. FVPSA also may be used to cover some expenses related to increasing public awareness and prevention of family violence, domestic violence, and dating violence.

FVPSA Non-Allowable Costs

FVPSA funds cannot be used to cover any costs not directly related to service delivery or public awareness/prevention for victims of crimes. Additionally, organizations cannot use FVPSA funds for any of the following:

- Direct payments to victims or any dependents
- Activities that directly benefit the offender/perpetrator
- Construction costs
- Food for staff and/or Board meetings and trainings
- Immigration fees

- Late fees
- Mortgage payments
- Stipends to volunteers or crisis line advocates
- Victim property loss
- Visitation Center services (Visitation Center staff expenses can only include direct service time spent with clients outside of the visit)

STOP/VAWA

The Services*Training*Officers*Prosecutors/Violence Against Women Act (STOP/VAWA) grant is funded through the DOJ and encourages strategies to combat violent crimes against women, including domestic violence, dating violence, stalking, and sexual assault. South Dakota Victims' Services awards STOP/VAWA grants to two types of groups: agencies that provide victims' services; and law enforcement agencies, prosecution agencies, and courts.

Primary Purpose

- The development and implementation of effective law enforcement and prosecution strategies to combat domestic violence, dating violence, sexual assault, and stalking.
- The development and enhancement of victims' services in cases involving domestic violence, dating violence, sexual assault, and stalking.

Priority

The South Dakota Victims' Services STOP/VAWA State Implementation Plan supports funding for two priority areas:

1. Enhanced Court Advocacy and other core services for victims provided through local domestic violence and sexual assault programs.
2. Specialized Service Programs for the following underserved populations:
 - a. Victims in rural areas
 - b. Native American victims
 - c. Adults sexually abused/assaulted as children
 - d. Survivors of homicide
 - e. Victims of intoxicated drivers
 - f. Victims of robbery
 - g. Victims of elder abuse/neglect

Additional Requirements

Federal guidelines require the State to distribute its STOP/VAWA funds according to the following allocations:

- 25% to law enforcement
- 25% to prosecution
- 30% to victim services (of which at least 10% must be distributed to culturally specific community-based organizations)
- 5% to courts
- 15% may be used for discretionary funding to serve victims of domestic violence, dating violence, sexual assault, and stalking.

Match Requirements

- No match is required for STOP/VAWA victims' services activities and services.

- All other allocation areas (law enforcement, prosecution, and courts) still require 25% match

STOP/VAWA funds cannot be used to cover any costs not directly related to service delivery for victims of crimes. Additionally, organizations cannot use STOP/VAWA funds for any of the following:

- Direct payments to victims or any dependents
- Activities that directly benefit the offender/perpetrator
- Construction costs
- Food for staff and/or Board meetings and trainings
- Immigration fees
- Late fees
- Mortgage payments
- Stipends to volunteers or crisis line advocates
- Victim property loss
- Visitation Center services (Visitation Center staff expenses can only include direct service time spent with clients outside of the visit)

SASP

The Sexual Assault Services Program (SASP) was created by the Violence Against Women and DOJ Reauthorization Act of 2005 (VAWA 2005), and is the first federal funding stream dedicated to the provision of direct intervention and related assistance solely for victims of sexual assault.

Primary Purpose

- Provide intervention, advocacy, accompaniment (e.g., accompany victims to court, medical facilities, police departments, etc.), support services, and related assistance for adult, youth, and child victims of sexual assault, family and household members of victims, and those collaterally affected by the sexual assault.
- Support the establishment, maintenance, and expansion of sexual assault services by non-governmental victims' services programs to assist those victimized by sexual assault.

Program Priorities

- Support rape crisis centers in providing direct intervention and related assistance services.
- Support dual programs that provide sexual assault and domestic violence services to enhance the provision of sexual assault related direct intervention and related assistance services.

Match Requirements

A contribution of non-federal dollars ("match") is not required for SASP grant awards.

Additional Requirements

In distributing SASP funds, South Dakota Victims' Services must:

- Give priority to areas of varying geographic size, which show the greatest need. This includes consideration of the range and availability of existing sexual assault programs and the geographic areas they can serve.
- Take into consideration the population of the geographic areas to be served.
- Equitably distribute monies on a geographic basis, including non-urban and rural areas of various geographic sizes.
- Ensure that the needs of previously underserved populations are identified and addressed.

SASP funds are awarded through a competitive review process.

SASP funds cannot be used to cover any costs not directly related to service delivery for victims of crimes. Additionally, organizations cannot use SASP funds for any of the following:

- Direct payments to victims or any dependents
- Activities that directly benefit the offender/perpetrator
- Construction costs
- Food for staff and/or Board meetings and trainings
- Immigration fees
- Late fees
- Mortgage payments
- Stipends to volunteers or crisis line advocates
- Victim property loss
- Visitation Center services (Visitation Center staff expenses can only include direct service time spent with clients outside of the visit)

DASA

The DASA (Domestic and Sexual Abuse Program) grant is funded through the State of South Dakota general funds, with monies appropriated annually by the South Dakota State Legislature.

Primary purpose

- To provide assistance to shelter programs that serve victims of domestic violence and sexual assault.
- To provide training programs for the staff and volunteers of shelter service programs.
- To provide domestic violence and sexual assault prevention and education programs.

Priority

- Priority is given to funding victims' assistance programs that serve victims of sexual assault and domestic violence.

Match Requirements

- DASA grants do not require a match.

DASA Allowable Costs

DASA funds can be used to cover costs related to direct services provided to domestic violence and sexual assault victims. DASA also can be used to cover some administrative expenses associated with serving victims of domestic violence and sexual assault.

DASA Non-Allowable Costs

Just as with all grant programs administered by South Dakota Victims' Services, agencies may not use DASA funds for any of the following:

- Direct payments to victims or any dependents
- Activities that directly benefit the offender/perpetrator
- Construction costs
- Food for staff and/or Board meetings and trainings
- Immigration fees
- Late fees
- Mortgage payments
- Stipends to volunteers or crisis line advocates
- Victim property loss

Calculating Match Required

To calculate the minimum amount of matching funds needed from grants that require a match, use the following formula.

- Determine if the grant requires a match (VOCA and FVPSA require match for Victims' Services funding).
- The amount of funding the organization requests from the grant program.
- Divide the request amount by 100 percent, minus the percent of match required.
- Non-Tribal programs that require a 20% match: divide the request amount by 80%
- Tribal programs that require a 5% match: divide the request amount by 95%.

The result will be the Total Project Cost.

Multiply the Total Project Cost by the percentage of match required (e.g., 20%). This will result in the amount of matching funds needed.

Match Documentation Requirements

Matching funds requirements as outlined in Federal 2 C.F.R. Part 200, Uniform Guidance and Cost Principles:

- Verifiable from the recipient's records;
- Necessary and reasonable for proper and efficient accomplishment of the project or program objectives;
- Not paid for by the federal/state government under another award (except where authorized by federal/state statute to be used for cost sharing or matching); and
- Allowable and provided for in the approved budget.

For volunteer or on-call hours being reported, most organizations send a calendar showing the number of hours each day and the individual volunteering. This makes it so a clear number of hours volunteered can be determined. For other direct service

activities, the same activity logs that employees complete or something similar will need to be provided. This is due to the fact the hours donated have to be allowable under federal funding as if they were being requested for reimbursement.

Victims' Services has set a \$25.43/hour match rate for individuals who provide volunteer crisis line coverage during non-office hours. This match rate has also been set for those individuals who provide unskilled labor. Administrative duties, as well as time donated for fundraisers **CANNOT** be reported as match. Professional services that are donated free of charge can be reported as match at the rate they would have normally been charged at.

Discounted or reduction in costs provided shall be valued as the difference between what the organization paid and what the provider's nominal or fair market value is for the good or service (counseling).

Indirect Costs

Indirect costs may be charged to an award only if:

- a) The recipient has a current (unexpired), approved negotiated indirect cost rate; or
- b) The recipient is eligible to use, and elects to use, the de minimis indirect cost rate described in the Part 200 Uniform Requirements, as set out at 2 CFR 200.414(f).

Negotiated rate: For federal grants, indirect cost rates are negotiated between the organization and a specific agency ("cognizant agency for indirect costs") that is designated to determine that organization's rate. (State administering agencies may approve rates for their subrecipients.)

De minimis rate: Certain organizations that have never before negotiated an indirect cost rate may be eligible to apply a de minimis 10-percent rate that does not require a negotiated rate agreement (details below).

Additional information: Additional information about indirect costs can be found on page 100 of the 2017 DOJ Grants Financial Guide.
<https://www.justice.gov/ovw/file/1030311/download>

*****Above Indirect Cost Information provided by Questions and Answers, Victim of Crime Act (VOCA) Victim Assistance Final Rule <https://www.govinfo.gov/content/pkg/FR-2016-07-08/pdf/2016-16085.pdf>***

Unallowable costs are costs that may not be charged to a federal award, either as direct or indirect costs. An organization is not necessarily prohibited from incurring unallowable costs at their own expense, but they cannot be recovered either directly or indirectly under a federal award. If unallowable costs are to be incurred, a recipient or subrecipient must establish separate accounts for such costs.

De Minimis Indirect Cost Rate Availability

As indicated earlier, under 2 C.F.R. Part 200 Uniform Requirements, certain award recipients — as well as certain subrecipients — may charge indirect costs using a *de minimis* rate. The *de minimis* rate is 10% of "modified total direct costs," as defined in **2 CFR 200.68**.

This *de minimis* rate is available without the need to negotiate with the cognizant federal agency for indirect costs. However, the *de minimis* rate is an option **only** for recipients and subrecipients that have never received an approved federally-negotiated indirect cost rate.

Any award recipient or subrecipient with a prior approved federally-negotiated indirect cost rate — even if it expired long ago — may **not** use the *de minimis* rate. Also, under the provision set out at **2 C.F.R. 200.414(f)**, State and local government departments or agency units that receive more than \$35 million in direct federal funding (as described in paragraph D.1.b of Appendix VII to 2 C.F.R. Part 200) are ineligible to use the *de minimis* rate.

When the *de minimis* rate is used, costs must be consistently charged as either indirect or direct costs. Double-charging is not permitted. A recipient (or subrecipient) that is eligible to use the *de minimis* rate and chooses to do so may decide at any time to submit an indirect cost proposal to its cognizant federal agency for indirect costs, if it has one. The *de minimis* rate may no longer be used once an approved federally-negotiated indirect cost rate is in place.

Absent unusual circumstances (such as an applicable restriction set by federal statute), the decision to charge indirect costs to a DOJ award using the *de minimis* indirect cost rate is an option for the recipient, not a decision for DOJ. The award recipient must, however, satisfy the requirements related to use of the *de minimis* rate as set out in 2 C.F.R. Part 200.

Direct Allocation Method

Some nonprofit organizations treat all costs as direct costs except general administration and general expenses. These organizations generally separate their costs into three basic categories:

1. General administration and general expenses;
2. Fundraising; and
3. Other direct functions (including projects performed under Federal awards).

Joint costs, such as depreciation, rental costs, operation and maintenance of facilities, telephone expenses, and the like are prorated individually as direct costs to each category and to each Federal award or other activity using a base most appropriate to the particular cost being prorated.

This method is acceptable, provided each joint cost is prorated using a base which accurately measures the benefits provided to each Federal award or other activity. The bases must be established in accordance with reasonable criteria and be supported by current data. This method is compatible with the Standards of Accounting and Financial Reporting for Voluntary Health and Welfare Organizations issued jointly by the National

Health Council, Inc., the National Assembly of Voluntary Health and Social Welfare Organizations, and the United Way of America.

Under this method, indirect costs consist exclusively of general administration and general expenses.

Reference: Appendix IV to Part 200 – Indirect (F&A) Costs Identification and Assignment, and Rate Determination for Nonprofit Organizations; B. Allocation of Indirect Costs and Determination of Indirect Cost Rates; 4. Direct Allocation Method

Under this method, 10% of Administrative Personnel Costs would be reimbursable. This includes but is not limited to indirect costs such as accounting expenses and salaries and expenses of executive officers. An example is shown below:

Budget Categories	Total
Personnel & Fringe Benefits <i>**Direct Service, Taxes, Workmen's' Compensation, etc.</i>	\$ 215,000
Administrative Personnel Costs <i>**Accounting expenses, salaries and expenses of executive officers**</i>	\$ 65,000
Rent & Operating Expenses	\$ 4,000
Community Education Expenses	\$ 2,500
Emergency Services	\$ 15,000
Furniture & Equipment	\$ 3,000
Travel/ Mileage	\$ 1,500
Development/ Training	\$ 3,500
Repair, Replace, Renovation	-
Telephone	\$ 300
Other Expenses	-
TOTAL BUDGET <i>(Not including Administrative Personnel Costs)</i>	\$ 244,800
10% De Minimis or if organization has Federally Approved Rate	10 %
Allowable Indirect Cost Reimbursement	\$ 6,500
TOTAL BUDGET REQUEST	\$ 251,300

Table 1

The above example shows what would be requested for reimbursement for indirect costs. As South Dakota Victims' Services utilizes a Direct Allocation Method, meaning each joint cost is prorated using criteria determined at the beginning of the grant period. The amount that is unable to be determined for its direct service cost would be the administrative personnel costs such as accounting expenses and the salaries of executive officers. This total for the year has the ability to be requested for reimbursement at the 10% *de minimis* rate or Federally Approved Rate with proper documentation. This reimbursement can be requested per federal grant.

In the example above, it was noted that \$65,000 was determined to be the Administrative Personnel Costs for the year. In the example, the organization does not have a federally approved cost rate and is therefore utilizing the 10% *de minimis* rate. This would make \$6,500 (10% of \$65,000) the amount that would be allowable for reimbursement. $(65,000 \times 0.1 = 6,500)$

Calculating Indirect Costs per Federal Funding Source

Indirect costs that can be requested for funding are those administrative expenses that cannot be assessed to a specific program but are vital to the operation. It will be determined the total cost of administrative personnel costs for the year. This would be but is not limited to: indirect administrative costs, accounting expenses, salaries and expenses of executive officers. These costs should not be requested for reimbursement from grants previously. An example has been provided below for further clarification:

Funding Source	Amount	% of Budget
VOCA	\$ 127,500	79.3%
FVPSA	\$ 33,250	20.7%
TOTAL	\$ 160,750	100.0%

Table 2

Allowable Indirect Costs Per Funding Source	
VOCA	\$ 5,155.52
FVPSA	\$ 1,344.48
TOTAL	\$ 6,500.00

Table 3

Table 1 shows the example organization has \$65,000 in administrative personnel costs for the grant cycle/year. This organization does not have a federally approved cost rate; therefore, is utilizing the *de minimis* rate of 10%.

$$\mathbf{\$65,000 \times 0.10 (10\%) = \$6,500}$$

It has been determined that \$6,500 would be the max amount across all federal funding sources that can be requested for reimbursement for indirect costs. Now that this amount has been determined, it needs to be figured out what percentage of funding a grant makes up of all federal funding received. In this example, the organization receives \$160,750 in federal funds. To determine the percentage VOCA for example encompasses, you would take the VOCA amount divided by the total federal amount received. So looking at table 2 this would be:

$$\mathbf{\$127,500 \div \$160,750 = 0.7931569230769231 \text{ or } 79.3\% \text{ once rounded}}$$

Since VOCA makes up 79.3% of the funding received federally, 79.3% of the allowable indirect costs that can be reimbursed can be charged to VOCA. To determine this, we will take the percentage of the federal funds received times the 10% of indirect costs already previously determined:

$$\mathbf{\$6,500 \times 0.7931569230769231 = \$5,155.52}$$

The amount of indirect costs that can therefore be requested for reimbursement from VOCA would be \$5,155.52.

Victims' Services will conduct an on-site review at least one time every 24 months. The on-site review will consist of a review of the organization mission, policies, review of documents related to employees and volunteers, organization victim procedures, administrative practices and fiscal management.

On-site reviews will include, but are not limited to, a review of the following items:

- Programmatic implementation;
- Data collection procedures;
- Program policies;
- Program by-laws;
- Case files with identifying information redacted;
- Employee personnel files to ensure Policies & Procedures are provided upon initial employment, background checks are conducted accordingly, and review of training received;
- Grant income and expenditure reports for selected three-month time period;
- Vouchers/billing statements, receipts and timesheets supporting Victims' Services fund expenditures for a three-month time period;
- Documentation of reported match;
- Board meeting minutes;
- Documentation of volunteer hours;
- Brochures; and
- Any other information or documentation Victims' Services may request due to program concerns.

Victims' Services will conduct a desk review at least one time every 24 months. The desk review will consist of a review of project goals and objectives, services provided to victims and fiscal management.

Desk reviews are utilized with any program not participating in an on-site review and will include, but are not limited to, a review of the following items:

- Review of programmatic implementation;
- Grant income and expenditure reports for the selected three-month time period;
- Vouchers/billing statements, receipts and timesheets supporting Victims' Services fund expenditures for a three-month time period; and
- Documentation of reported match.

The monitoring schedule for the funding cycle includes Victims' Services staff and/or contracted employees conducting on-site reviews with programs that received a desk review the previous year. The programs that received a desk review the previous year will receive an on-site review. Some of the programs designated for a desk review may

have an on-site review if they are deemed high-risk as determined by the risk assessment. Monitoring schedules may be adjusted on a case-by-case basis. Possible reasons to alter the monitoring schedule may include, but are not limited to:

- A new director;
- Issues or concerns;
- Complaints.

Irregularities or concerns may require increased program monitoring. Any identified irregularities or concerns regarding the program, whether the concerns are generated internally through desk monitoring or reviews of quarterly performance reports and annual reports, through on-site reviews or by external reports concerning the program.

Educational on-site visits may be scheduled with new programs receiving funds for the first time from Victims' Services within six months of the start of the grant contract. The purpose of the visit is to meet staff, evaluate and give guidance regarding the structure of the organization, program administration, fiscal management, compliance with federal and state rules, and educate about Victims' Services computer systems.

Reporting Requirements

Programs are required to track demographic and service information on clients served and matching funds. Programs are required to complete a Quarterly Performance Progress Report and submit via Managing Assistance for Victims' Services (MAVIS).

Quarterly Reports are due on: July 15, October 15, January 15 and April 15.

Programs receiving STOP and SASP are also required to complete an Annual Progress Report using a reporting form from the Muskie Institute. It is suggested programs review the reporting requirements by going to the Muskie Institute website at <http://muskie.usm.maine.edu/vawamei/> to review reporting requirements for STOP and SASP funds. The STOP and SASP Annual Progress Reports are due to the Victims' Services Programs no later than February 15th each year.

Additionally, programs are required to submit a Year-end Fiscal Financial Report by July 15th, each year. This report will be provided by the Victims' Services Programs near the end of the grant cycle.

If there are questions on reporting or reporting requirements, those should be directed to the Victims' Services Programs for further guidance.

Also see **FY21 Schedule

Drawdown Requests for Reimbursement

Victims' Services funds will be paid on a reimbursement basis. Requests for payment must be submitted through MAVIS and must include itemized breakdowns of expenses incurred to each grant and the funds being requested. Documentation of all expenses

requesting reimbursement will be required. Under no circumstances will funds be advanced. Drawdowns must be submitted to the State by the 20th day of the following month.

Prorating Guidelines

The definition of *prorate*:

- *To divide, distribute or assess proportionately; a proportional distribution.*

To determine the percentage to be used for prorating, this will be assessed at the estimated funding sources provided at the time of application. Organizations should estimate their total budget for the grant award period. Organizations must prorate items and services based on the value of the portion of the item/service that will be funded by a grant in relation to the item or service’s total value. Prorating must be used when an item is not or service is solely utilized by victims.

An example of how to determine prorate amounts is shown below:

<i>Bill Amount</i>		<i>\$ 600.00</i>	
<i>Income Source</i>	<i>Awarded Amount</i>	<i>% of Budget</i>	<i>Total Reimbursement From Each Funding Source</i>
DASA	\$ 5,000	2.9%	\$ 17.65
FVPSA	\$ 15,000	8.8%	\$ 52.94
STOP	\$ -	0.0%	\$ -
VOCA	\$ 85,000	50.0%	\$ 300.00
SASP	\$ -	0.0%	\$ -
Unrestricted/Other	\$ 65,000	38.2%	\$ 229.41
TOTAL	\$ 170,000		

For example, to determine an organization monthly rent amount that may be reimbursed by each funding source, we will use the table above. If the monthly rent for the shelter/office is \$600, the below amounts may be charged or requested for reimbursement:

- DASA can pay for 2.9% or \$17.65
- FVPSA can pay for 8.8% or \$52.94
- VOCA can pay for 50% or \$300.00
- Unrestricted/Other funding must pay for 38.2% or \$229.41

Items that are used solely for victims’ services allowable activities, such as shelter phone or crisis line, you may prorate only among Victims’ Services funding and not have to utilize other/unrestricted funding. Other/unrestricted funding represents all funding received by the organization that is not Victims’ Services funding. This includes fundraising income, United Way, ESG, Marriage/Divorce Fees, Private Funding, etc.

When prorating for SASP expenses, it must first be determined the amount of time an item or service is being utilized on sexual assault related services or on assisting sexual assault victims. Once that has been determined, that amount can be prorated among all funding sources.

Rent and Operating costs which must be prorated to all funding sources include:

- Insurance
- Benefits and Workman’s Compensation Insurance costs, must be prorated based on the amount of payroll expenses being allocated to each grant
- Utilities such as electric, security, heat, propane, water, sewer and waste
- Office supplies including stamps and copier fees
- Facility rent
- Shelter supplies such as cleaning supplies and toiletries
- Minor repairs and maintenance
- Telephone costs
- Audit costs

Note: Agencies may not use any Victims’ Services grant funds to pay for items or services not included in the grant application. If an agency needs or would like to use grant funds for items and/or services that were not originally included in the application for funding, they should contact South Dakota Victims’ Services Program Manager.

Additional Prorating Examples

Prorating for shelter supplies, utilities, audit costs, rent, and landline phone costs. Using Table 1 below as an example, divide the income from each funding source by the total income to determine the prorated percent of income from each source. For instance, the \$20,000 for FVPSA income, divided by the total budget amount of \$120,000, equals 16.7% (round up to the nearest tenth for percentages). The examples below provide additional information to help agencies understand how to prorate expanses correctly. Dollar amounts should be rounded up or down to the nearest whole dollar ($\leq .4$ round down; $\geq .5$ round up).

Table 1 – For use in examples 1 – 3 below

Agency Funding Sources	Total Income from Funding Sources	Percentage of Total Income from Funding Sources
United Way	\$10,000	8.3%
ESG	\$20,000	16.7%
Other Funds	\$20,000	16.7%
VOCA	\$25,000	20.8%
FVPSA	\$20,000	16.7%
STOP/VAWA	\$10,000	8.3%
SASP	\$10,000	8.3%
DASA	\$5,000	4.2%
Total	\$120,000	100%

Example #1: Rent and Operating Costs – Facility Rent

If total costs of facility rent for the grant project period were \$7,000, at a maximum, Victims’ Services grants could pay for \$4,081 of the total \$7,000

- **VOCA** would cover \$7,000 x 20.8% = **\$1,456**
- **FVPSA** would cover \$7,000 x 16.7% = **\$1,169**
- **STOP/VAWA** would cover \$7,000 x 8.3% = **\$581**
- **SASP** would cover \$7,000 x 8.3% = **\$581**
- **DASA** would cover \$7,000 x 4.2% = **\$294**

Only portions of the expenses funded through the Victims' Services grants can be prorated to the Victims' Services grants. For example, if an organization has an "umbrella program," but uses Victims' Services grants to pay for only the shelter services of that program, then the organization would need to determine the utility expenses related to only to the shelter services and prorate those expenses across Victims' Services grant funding sources and any other sources used.

Example #2: Repair, Replacement, and Renovation Costs

If total repair, replacement, and/or renovation cost were \$2,500, at a maximum, VOCA funds could pay for **\$520** of the total \$2,500

- **VOCA** would cover \$2,500 x 20.8%= **\$520**
- **FVPSA** cannot be used to pay for repair, replacement, and/or renovation costs **\$0**
- **STOP/VAWA** cannot be used to pay for repair, replacement, and/or renovation costs = **\$0**
- **SASP** cannot be used to pay for repair, replacement, and/or renovation costs = **\$0**
- **DASA** cannot be used to pay for repair, replacement, and/or renovation costs = **\$0**

Repair, replacement and renovation costs are allowable only under the VOCA grant.

Example #3: Prorating for Workman's Compensation Insurance and Payroll Expenses

Current payments for Workman's Compensation must be based on prior payroll. The organization must determine all payroll expenses for the timeframe in which Workman's Compensation Insurance is paid. For instance, if Workman's Compensation is paid annually, proration should be based on the last 12 months of payroll; if paid bi-annually, proration should be based on the last six months of payroll; if paid quarterly, proration should be based on the last three months of payroll; and if paid monthly, proration should be based on the last month of payroll. Divide payroll expenses from each funding source by the total payroll expenses to determine the prorated percentage for each income source

Table 2 – For use in example 4 below

Agency Funding Sources	Agency Jan-June Salary Expenses	Percentage of Total Income from Funding Sources
Other Funds	\$20,000	36.4%
VOCA	\$13,000	23.6%
FVPSA	\$10,000	18.2%
STOP/VAWA	\$6,000	10.9%

SASP	\$2,000	3.6%
DASA	\$4,000	7.3%
Total	\$55,000	100%

Example #4: Crisis line costs for organizations without SASP funds

Crisis line costs are prorated a bit differently than other costs; they may be prorated only among Victims’ Services funding. Organizations may not include other funding sources in the prorating calculations for crisis line expenses.

If total crisis line costs were \$5,000 for one month, at a maximum, Victims’ Services grants could pay for \$5,000 of the total \$5,000

- **VOCA** would cover $\$5,000 \times 41.7\% = \mathbf{\$2,085}$
- **FVPSA** would cover $\$5,000 \times 33.3\% = \mathbf{\$1,665}$
- **STOP/VAWA** would cover $\$5,000 \times 16.7\% = \mathbf{\$835}$
- **DASA** would cover $\$5,000 \times 8.3\% = \mathbf{\$415}$

Example #5: Crisis line costs for organizations with SASP funds

Crisis line costs for organizations with SASP funds must first account for the proportion of sexual assault calls received in relation to all calls received. For example, an organization receives 200 crisis calls per month, and five of those calls are related to sexual assault. Using the information in Table 3 above, and assuming the agency crisis line costs are \$5,000 for one month:

- Divide the total sexual assault related calls by the total number of calls for the month ($5/200 = 2.5\%$). SASP can be used to pay for 2.5 percent of the crisis line costs for the month, which equals \$125 ($\$5,000 \times 2.5\% = \125).
- Subtract the amount that can be allocated to SASP from the total crisis line expenses for the month ($\$5,000 - \$125 = \$4,875$) and determine the amount that can be allocated by grant to the remaining monthly cost of \$4,875.
- **SASP** would cover $\$5,000 \times 2.5\% = \mathbf{\$125}$

At a maximum, other Victims’ Services grants could pay for **\$4,875** of the remaining \$4,875

- **VOCA** would cover $\$4,875 \times 41.7\% = \mathbf{\$2,033}$
- **FVPSA** would cover $\$4,875 \times 33.3\% = \mathbf{\$1,623}$
- **STOP/VAWA** would cover $\$4,875 \times 16.7\% = \mathbf{\$814}$
- **DASA** would cover $\$4,875 \times 8.3\% = \mathbf{\$405}$

Determining Direct Service Time

It is required that all individuals paid with Victims’ Services funds, utilize timesheets to verify how time is spent. Only direct service time and hours spent on grant specific requirements are eligible for reimbursement from VOCA, FVPSA, STOP and SASP.

Organizations should have employees maintain and complete timesheets and/or time logs documenting how time is spent. This needs to be completed by and signed by the employee then reviewed by a supervisor or superior who is familiar with the employee's activities. An example of a timesheet is shown below. If you need assistance in creating a timesheet or would like a template, please contact the Victims' Services Program.

Direct Service Time Example:

Day of the Week	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday	HOURS WORKED
Hours Worked	8.00	7.75	8.00	8.00	8.25			40.00

TOTAL LEAVE								

Pay Period Totals		
Direct Services	29.50	
Indirect Services	10.50	
Leave/ Holiday		
Grant Eligible	29.50	73.75%

Total Hours Worked Week 1	40.00
Total Hours Worked Week 2	
Total Hours Worked During Period	40.00
Total Volunteer Hours During Period	58.00

In the example above, an employee worked 40 hours with 29.5 of the hours being direct service hours. To figure how much of the salary is eligible to be reimbursed by federal funds, you should determine the percentage of hours worked that were direct service. To do this, you would take the direct service hours divided by total hours worked.

29.5 direct service hours ÷ 40 total hours worked = 0.7375 or 73.75% of time was direct service

If this employee had an hourly rate of \$20.21 and we were including the employer's portion of payroll taxes in the request for reimbursement, the eligible amount to request would be as follows:

\$21.20 x 40 hours worked = \$808.40 gross pay
\$808.40 gross pay x 0.0765 (7.65%) = \$61.84 payroll taxes

\$808.40 (gross pay) + \$61.84 (payroll taxes) = \$870.24 (Total employee's wages including taxes)

Now that we know the total for the employee, we can go back to their direct service time and use that percentage to determine how much of their pay can be requested for reimbursement. To do this, take their total pay and times that by the percentage of time that was direct service eligible. Using the same figures and example, this would be:

\$870.24 (wages & taxes) X 0.7375 = \$641.80

\$641.80 would be the max amount between all federal funding sources to be reimbursed by Victims' Services. For further clarification or questions, please direct them to the Victims' Services Program.

Furniture and Equipment Expenses

Furniture and equipment expenses must be prorated based on the estimated amount of time the furniture and equipment will be used for direct services to victims or for victim-related activities. If applying to use SASP funding for furniture and/or equipment, the agency also must consider the amount of time the furniture and equipment will be used for direct services specifically to victims of sexual assault.

For example, an organization purchases a \$900 computer for a Advocate/Sexual Assault Advocate. The Advocate spends approximately 5% of their time working on fundraising, 7% on administrative duties, 20% with sexual assault victims, and 68% with domestic violence victims.

- The agency cannot charge any of the fundraising time (5%) to Victims' Services grants.
- The agency may charge \$63 to DASA for administrative duties (\$900 x 7% = \$63); no other Victims' Services grants can be used to pay for administrative costs.
- The agency may charge \$180 for time spent with sexual assault victims to either SASP, VOCA, and/or DASA (\$900 x 20% = \$180).
- The agency may charge \$612 for time spent with domestic violence victims to either VOCA, FVPSA, and/or DASA (\$900 x 68% = \$612). These costs may not be charged to SASP.
- *The STOP/VAWA grant cannot be used to purchase the computer; STOP/VAWA does not include furniture and equipment as allowable expenses.*

Organizations are required to complete and submit a Furniture and Equipment form for all furniture and equipment purchased with Victims' Services funds. This form should be provided to Victims' Services Program at the same time as the corresponding drawdown request for reimbursement is submitted.

Core Services

Crisis Referral & Telephone Services

REQUIRED

- Crisis telephone and referral services must be available 24 hours per day, seven days per week.
- Crisis line must be toll-free or capable of receiving collect calls.
- The line is answered only by individuals trained to provide immediate assistance.
- The line is not answered by an answering machine, prompting device or voicemail system.
- The number for the crisis line is listed in the telephone director for the organization's service area and is printed on any informational material distributed by the organization.
- The administrative phone when not answered, must clearly direct callers to the crisis line.
- Organizations that utilize professional answering services, switchboard operators or any other answering system must have signed confidentiality agreements on file.

Additional Recommendations:

- It is recommended that one consistent crisis line number be advertised.
- The crisis line is equipped with a rollover line or similar mechanism to ensure callers do not receive a busy signal.

Shelter Availability

REQUIRED

- Shelter must be available 24 hours per day, seven days per week.
- There must be an advocate able to meet with a client to check them into the shelter within a reasonable amount of time of the client requesting shelter.

Community Education

REQUIRED

- Each organization shall have a written policy relating to Community Education.
- Must include methods to promote understanding, collaboration, and assistance from other agencies and community organizations. The policy must define the methods the organization will use to promote understanding, collaboration and assistance from other agencies, programs and community organizations.
- Policy must define how the organization plans to publicize the availability of services within the entire service area including methods of publicizing to underserved populations. (If the organization serves multiple counties, the policy should include the methods by which all covered counties are reached.)
- The policy must reflect the schedule for preventive and education programs, as well as for publicizing service availability to comply with the requirement of SDCL 25-10-28 that prevention and education programs are periodically available to the local community.

If the organization creates a plan to provide community education on an established schedule, through strategic planning or through another method, the document could be referenced in the policy, rather than repeating the entire plan in the policy.

Additional Recommendations:

- Activities such as participating in multidisciplinary meetings or inter-agency groups that are sensitive to and responsive to the needs of victims; participating in community events and health fairs; speaking to groups about the organization and mission, as well as about domestic violence and sexual assault; and collaborating with other agencies to provide more effective services.
- The policy may include the “groups” the organization will seek out on an annual basis to offer professional training opportunities and community awareness activities.
- Does the organization have an evaluation process in place to measure the impact of education programs, professional trainings, and community awareness activities and outreach activities? An example would be an

evaluation completed by the attendees. If yes, the organization may want to include this in the policy, as well as information in the process (i.e., who reviews them).

- Does the organization require staff to record the activities they participate in? If yes, the organization may want to include in the policy what is required to be tracked and how. (Example: Staff who have provided a community education presentation, professional training or community awareness activity, must provide a report to the Director at the end of each month which includes the topic, audience, number in attendance, and duration. (Please note: organizations funded with Victims' Services funds are required to report this information on a quarterly basis in MAVIS.)
- Some common forms of service publication include a organization website; Facebook; distributing brochures; telephone books; radio and television public service announcements; newspaper ads; flyers; posters; and newsletters.

Types of Victim Advocacy Services Available

REQUIRED

- Program must ensure the advocacy and services provided are victim centered.

Confidentiality of Information and Restrictions

REQUIRED

- Confidentiality of identity, location, records, and information pertaining to any person whom services are being or were provided. (**Also see Confidentiality**)

Shelter Services

Established Shelter House Rules

REQUIRED

Confidentiality

Define What is Confidential Information

REQUIRED

The organization should define confidential information as it pertains to clients served, records of the clients, and program/administrative records which your organization defines as confidential records (such as personnel files, etc.)

- The program must comply with state and federal confidentiality laws, including the confidentiality provisions included in the VAWA Act. Policy must be consistent with the provisions in the VAWA in both prosecution and victim advocate matters. The policy should protect victim specific information other than what is discoverable through prosecution-related activities. **(If applicable)**
- Consequences for violating the Confidentiality Policy.

****Also see: Requirement to Report Actual or Imminent Breach of Personally Identifiable Information (PII)**

Additional Recommendation:

- ARSD 67:56:01:01 defines "Confidential information," as any written, oral, or electronic communication between a person seeking or receiving services and an advocate; any records or written, oral, or electronic information identifying an individual seeking or receiving services; and any information relating to services provided to an individual including the location of services. Your organization should refer to this definition when creating your organization's definition.

Limits to Rights on Confidentiality

REQUIRED

- Policy must include notification that the organization staff and volunteers are required by law to report suspected child abuse and neglect (SDCL 26-8A), as well as the abuse and neglect of an elder or adult with disabilities (SDCL 22-46). Note, for the purposes of this law, South Dakota defines an elder as an individual aged 65 and older.
- No information beyond what is required under state law, to be in compliance with mandatory reporting, can be provided without a properly executed written Release of Information from the victim.
- Notification that the organization is required to comply with state and federal laws, as well as court orders.
 - Does your organization have a plan in place if someone wants to serve a subpoena/court order or if law enforcement requests information or records?

- Notification of other instances which may limit a client's right to confidentiality. This may include, if the organization knows, or has reason to believe, there is a potential suicidal behavior or threat to harm others that is likely to result in clear, imminent risk of serious physical injury or death to the client or another person.

****Also see: Requirement to Report Actual or Imminent Breach of Personally Identifiable Information (PII)**

Release of Client Information

REQUIRED

- Policy must clearly state the organization may not reveal client's personally identifying information (PII) without informed, written, reasonable time-limited consent by the person about whom information is sought.
- The Release of Information documented signed by the client must include:
 - Identify the individual or entity to which the information is being released. The organization must receive a separate Release of Information for each individual or entity to who the client requests information be released;
 - Specify the information to be released;
 - Specify the purpose of releasing the information;
 - Specify the timeframe in which information may be released; (Timeframe should be for the limited time necessary to meet the client's needs. Timeframe should be selected by the client)
 - Be signed and dated by the client and/or the client's legal guardian;
 - Be signed and dated by an Advocate;
 - Provide that the client may terminate the release at any time;
 - Provide that the client's signing the Release is voluntary; and
 - Provide notification that information released by fax or email may not be secure.

For more information about Releases of Information, as well as a sample VAWA compliant Release of Information Form (in English or Spanish) visit www.nnedv.org and click on "Resources," and then "Technology and Confidentiality Resources Toolkits," and "Template," or search Release of Information on the NNEDV site.

****Also see: Requirement to Report Actual or Imminent Breach of Personally Identifiable Information (PII)**

Provisions of Confidential Records

REQUIRED

Provisions addressing access, security and destruction of confidential records:

- Who has access to client records? This would include information regarding client having access to their own records.
- Where records are kept to ensure they are secure. (Example: locked file cabinets). Are records protected from fire or other damage?
- How records are destroyed, who can destroy them and when they can be destroyed?

- Example: Shredded by (individual's name/title) once authorized by the Executive Director and after they have passed the time stated in the program's records retention policy

****Also see: Requirement to Report Actual or Imminent Breach of Personally Identifiable Information (PII)**

Grievance Procedures to Address Breach

REQUIRED

Grievance procedures to address any violations of confidentiality:

- Confidentiality policy must include the process for filing a grievance, should a client feel information has been improperly shared, or the policy must state how the client may access the grievance policy.

****Also see: Requirement to Report Actual or Imminent Breach of Personally Identifiable Information (PII)**

Notification to Clients of Visitors

REQUIRED

Provisions ensuring notification to clients when an outside service provider or visitor will be present include:

- The procedures used to notify clients when an outside service provider or visitor will be present must be stated in the policy. Additionally, clients must be allowed to remove themselves from the area where the service provider or visitor will be.
 - Example of notice could include: Clients will be notified in person by a staff member that an outside service provider is expected to visit the facility on "X" date and at "X" time.
- Staff will explain the purpose of the outside service provider's visit, as well as notify the client they are welcome to remove themselves from the area the service provider will be present in.
- Clients who cannot be reached in person, program will need to define alternative notification method.

Client Rights to Confidentiality

REQUIRED

A requirement that information regarding each client's right to confidentiality and the need to protect that confidentiality is provided to each client, organization staff member, volunteer, outside service provider and visitors.

- The policy must state how the information regarding each client's right to confidentiality and the need to protect that confidentiality is provided to each group. The information must be shared both verbally and in a written form.
 - Example: The how could be that all visitors and outside service providers will sign a Visitor's Confidentiality Log prior to working at or entering an area of the facility in which clients may be present. All staff and volunteers will sign the organization's Confidentiality Statement for

Advocates/Employees prior to beginning any work at the facility and all clients will sign a Confidentiality Form at in-take.

- The organization must have procedures in place which support the policy. This would include any forms given to or signed by clients, organization staff, and volunteers, outside service providers or visitors. As defined in the above example, in most cases the procedures will differ for each group of individuals.
 - Example: Maintenance personnel may be required to sign a form stating they agree they will keep confidential any persons they may see while working at the shelter, as well as any shelter operations they become aware of; however, organization staff may receive more of a comprehensive form.
- The information given to each client must not only notify them of their rights to confidentiality, but also the rights to confidentiality for other organization participants/clients they may see while at the facility. If the organization has a requirement of clients, staff, volunteers, outside service providers and visitors are to protect the organization location, this should be included in the notification.
- Clients must be given a copy of the organization's Confidentiality policy at in-take.
- If the organization has consequences for violations of the Confidentiality Policy, these must also be included in the policy.
- Anytime security or surveillance videos are used, survivors or anyone entering your facility must be informed they are being recorded. This must be done through visible signs that state the security camera is in use.
- Confidential information includes any personally identifying information (PII) collected in connection with services requested. This includes:
 - Demographic;
 - Personally Identifying Information (PII), which includes any individual information such as a date of birth;
 - Racial or ethnic background;
 - Religious affiliation that individually or in combination with any other non-personally identifying information would serve to identify any individual.

Additional Recommendations:

- If a visitor will be in an area of the facility in which no clients are present, such as a person comes to drop off donations at the administrative office, then the visitor does not need to be made aware of the client's right to confidentiality; however, the organization may want to consider hanging a sign in these areas, in case a client would present themselves while the visitor is there.
- Please note that a posted sign should not be used as the only method to notify those individuals you know will be in contact with clients or inside the shelter.
- A sample Visitor Confidentiality Agreement can be found at nnev.org/tools and selecting Templates.
- Organization may want to include items about confidentiality and PII in their policy, especially in how it relates to identifying individuals served that are featured in media and in presentations).
- A sample Client Notice of Rights/Confidentiality Form (in English and Spanish), can be found at nnev.org. Click on, "Resources," and then "Technology and Confidentiality Resources Toolkits," and "Templates." Note, this form does not include all of the items required under South Dakota law and administrative rules but it does provide for good information and starting points.

- It is recommended to have Board Members sign the Confidentiality Agreement that organization employees sign.

Client Services (Non-Shelter Support & Shelter Services)

In-take & Referral Procedure Requirements

REQUIRED

Organizations must make clear what the definition of “in-take” is. For example, does your organization define “in-take” as each time an individual comes into the organization, once each month, once each quarter or annually? When defining in-take, the organization must not go over a one-year period.

- The forms Advocates are to complete at in-take: telephone in-take; in-person in-take and Shelter check-in:
 - An in-take form must be completed at in-take. The in-take form must have a place to track all of the information which is collected in the MAVIS system.
- See Items to be Included on Organization’s In-Take***
- The Victims’ Services Program also requires all services to be tracked. It is common for other forms to be completed in in-take. The forms your organization requires at in-take must be included in the policy.
 - Within the MAVIS system, one (1) intake date must be provided for each client the first time they are seen within the federal fiscal year (FFY) to have the system properly report on client data.
 - Organizations may choose to create one intake date per quarter to ensure this is being completed. This is optional and not required by SDVS.
- The process Advocates use to explain the available services at in-take.
- Explain the forms clients seen in-person are to receive at in-take, as well as which forms (if any) require a signature from the client.
- The referral process of when and to whom.

Additional Recommendations:

Factors to consider when creating a referral policy are:

- What does the organization do if a client requests shelter but the facility is at full capacity? Is a referral made at this point?
- How are out of service area referrals handled?
- What does the organization do if a client requests services but is not eligible?
- What does the organization do if a client requests services that are not provided by the program (legal services, counseling services, food bank, etc.?)
- Does the organization maintain an updated list of service providers and their contact information?

Eligibility to Receive Services

REQUIRED

The organization's service area must be defined in policy. This may be located in eligibility policy or in a separate policy.

- The policy must define the organization's eligibility standards for sheltered clients and non-sheltered clients, and any criteria for denial of services.
- Eligibility standards must ensure males and women with male teenage sons are offered services in the same manner as females.
- Eligibility standards must ensure individuals with disabilities are offered services in the same manner as those without disabilities. If the shelter or office is not ADA accessible, what does the agency do?
- Eligibility standards cannot mandate participation in services, nor charge a fee for any core services. None of the organization's policies can mandate participation in any program services; this includes but is not limited to attending support groups and participating in benefit programs.
- Organizations are prohibited from applying inappropriate screening mechanisms, such as criminal background checks or sobriety requirements to receive services.

Additional Recommendations:

- Does the individual need to be a victim of domestic violence, sexual assault, and stalking and/or child abuse? If yes, does the organization serve primary and secondary victims? If no, what times of victimization does the individual need to have in order to be served by the organization?
- Are there circumstances in which an individual would be denied services? If yes, are their guidelines for staff to facilitate accessing other resources/services?
 - Example: Could include harm to self or others or have emergency medical needs which could be a danger to self.
- Is there a timeframe in which the victimization must have occurred for shelter services? For non-shelter services?
- Does the client need to be from the service area to receive shelter or support services?
- Does the client need to be over the age of 17 or accompanied by a parent or legal guardian over the age of 17 or legally emancipated to be sheltered or to receive support services? *Note: Under South Dakota state law, victim advocates are required to report child abuse and neglect for anyone under the age of 18.*
- Does the organization allow family pets to be sheltered at the facility? If yes, are there limits to this? If no, are there other options for the pet? Does the organization have an agreement with a pet kennel or shelter to assist with housing pets of clients that are displaced?

Conflicts of Interest

REQUIRED

- The policy must define what the organization considers a "Conflict of Interest."
 - Example definition: A conflict of interest occurs when the interest of a organization staff or advocate potentially has a negative effect on the program, client or the provision of services.
- The policy must define procedures the organization uses to address conflicts of interest between staff and clients.
- The requirement of reporting a conflict of interest must be on the advocate and not on the client.

- If the organization will have disciplinary action for not reporting a Conflict of Interest, this must be stated in the policy.

Additional Recommendations:

- Clearly defining conflicts of interest examples:
 - A staff member knows or is related to the victim or offender, or a close associate of the victim or offender.
 - The organization's staff has already provided services to one party in the relationship. (I.e. both parties of an incident of abuse have contacted the program reporting to be the victim).
- When possible, an advocate who does not have a conflict of interest should interact with the client and the client should be assure the advocate with a conflict of interest will not have access to the client's records.
- If the organization's policy allows the organization to only serve one person in a relationship, there should be a referral process in place for the other person in the relationship to receive services elsewhere. The organization will need to ensure the policy and process does not breach the client's confidentiality.
- The size of the community and the size of the organization's staff should be taken into account when creating a Conflict of Interest Policy.
- Does the organization have any prohibitions on staff having personal social media contact with current or former clients? (I.e. Facebook friends, Twitter followers, follower on Instagram, friends on Snapchat, etc.?) If so, these should be included in the policy.

Transportation Services

REQUIRED

- The policy must clearly define who, when, where, how and for what reasons the organization provides transportation services to sheltered and non-sheltered clients.
- Who does the organization provide transportation to? Sheltered and non-sheltered clients?
- When does the organization provide transportation? During office hours only or anytime?
- Is transportation limited to inside city limits or is it provided anywhere in the service area?
- How is transportation provided?
 - Is it provided by organization vehicle, transit/bus tickets, staff personnel vehicle, fuel for a client's vehicle, etc.?
- Under what circumstances does the organization provide transportation?
 - For any reason or only for appointments such as medical, school, DSS appointments and job interviews, etc.?)
- The transportation policy given to advocates must require proof of insurance and valid driver's license for all paid staff and volunteers who drive for the organization or transport clients as part of their work responsibilities.
 - Proof of insurance must be kept on file.
 - The organization should define the insurance requirements for staff that transport clients in their personal vehicles.

- The policy must also notify advocates/staff that texting and driving is strictly prohibited.
- If transportation is provided in an organization vehicle or staff vehicle, the policy must include notification that child restraints and seat belts will be worn in accordance with SD laws.
- Any portions of the policy applicable to sheltered clients must be included in the in-take packet or Shelter House Rules.

Additional Recommendation:

- The transportation policy does not need to be given to non-sheltered clients.

Medical Care

REQUIRED

- The policy must define the organization’s procedure for assisting a client with receiving medical care.
- Any portions of the policy applicable to sheltered clients must be included in the Intake packet or Shelter House Rules.

ADDITIONAL RECOMMENDATIONS:

- Items to consider with the Medical Care Policy may include:
 - Are clients given referral information for medical providers?
 - Who is responsible for the payment of medical care?
 - Does the organization ever pay the cost of medical care or medication? If yes, when and what is the process for requesting such financial assistance?
 - Would the organization call an ambulance on behalf of the client in an emergency? If yes, VAWA confidentiality requirements must be followed unless the organization has a Release of Information signed.
 - How does the organization address a client coming into the shelter with medication?
 - Please note: we encourage organizations to consult with their attorney in regards to the Americans with Disabilities Act prior to requiring a client to disclose information about their medications or medical condition.

Care of Children When a Parent is Absent

REQUIRED

- Policy must define if someone else may provide care to the children at the facility if the parent is absent (i.e. at work, at an appointment, at a counseling or group session, etc.)
- Portions of the policy in which sheltered clients need to be made aware of must be included in the in-take packet or Shelter House Rules.

ADDITIONAL RECOMMENDATIONS:

- Examples of items to include in the policy are:
 - Can residents provide supervision of another resident’s child(ren)?

- Can staff provide supervision of the child(ren)? If yes, when and for what purpose?
- Are there consequences for leaving children alone at the facility or in the care of another resident? If yes, what is the process staff will follow? (Is DSS called? If so, is the parent encouraged to be involved in the report?)
- If the organization allows for other residents or staff to supervise another resident's child(ren), is there any form the resident must complete? Stating the time the resident will return, a contact number for an emergency or how to provide emergency medical care should the parent be unreachable.

FVPSA Outcome Data

REQUIRED

- The organization must have a written policy in place that outlines who will collect the FVPSA Outcome Data, how often and from whom the data will be collected.

See FVPSA Outcome DATA

Safety & Security Standards & Procedures

REQUIRED

- Staff must be made aware of the procedures staff must follow, as well as the procedures clients must follow.
- Safety and security measures sheltered clients need to follow must be in the shelter house rules.

ADDITIONAL RECOMMENDATIONS:

- This will likely be included in the Personnel Policies, Employee Manual or other operating procedure manual. Examples include:
 - Keep doors and windows locked;
 - Defining who can answer the door;
 - Location of first aid kits;
 - Use of telephone (shelter facilities are required to have a landline telephone which can be accessed by victims 24/7);
 - Exit locations;
 - Fire extinguisher location;
 - Medication storage;
 - Confidentiality of shelter location;
 - Operation of the security system and panic button;
 - Emergency evacuation in the event of a natural disaster;

The organization shall retain such records for **six years following termination of the agreement**, unless pending audit then they must be held for a longer period.
- Records retention must specifically discuss client, financial and employee records.
- If your organization uses security or surveillance videos, the retention policy must state when records are purged and should detail any exceptions.

ADDITIONAL RECOMMENDATIONS:

- If your organization uses security or surveillance videos, purging every 24-48 hours is suggested, *per NNEDV Technology and Confidentially Toolkit which can be accessed at <http://nnedv.org/tools/>. Select “Frequently Asked Questions” then “Records Retention and Deletion”, then “What about other types of records, such as security or surveillance videos”.*)

- If the organization allows for Board Members to vote by teleconference or by mail, the program must ensure the voting process is compliant with SDCL 47-23-21.
- The Victims’ Services Programs reviews the organization’s Board Meeting Minutes to ensure they reflect the financial statements were reviewed and approved by the Board of Directors.

Additional Recommendations:

- Conflict of Interest statements are suggested to be included.

Information to be Tracked

Items to be Included on Organization's In-Take

The below items must be included on Program's Intake for each client.

- If you do not do a separate Intake for children who are served with their parents;
- You must ensure the parent's Intake includes all of the below information for each child the program is serving, as well as for the parent.

There are times when collecting all of the below information is not possible, such as during a crisis phone call or at the time a client is in crisis when soliciting the information may be inappropriate or offensive to the client. However, if you continue to work with the client you should be able to gather most, if not all of below information on a client being served by the program.

This grant period will have a more extensive list of information to be tracked for client information and demographics. Victims' Services previous systems did not have the capability to track this previously as required for receiving federal funding. Some the information may be delicate to ask for and may be helpful to have an ice-breaker lead into what is being asked. A good example could be:

Our organization is committed to assisting all individuals regardless of age, disability and/or handicap, sex gender identity (or expression), sexual orientation, pregnancy, race, color, national origin and religion. Our organization will ask questions about how you identify. We ask these questions of all individuals we serve so that we can understand the needs of the community and help identify the best services available. This information will be shared with our funders; however, your name or any other personally identifying information will not be shared. All of your answers will be protected and confidential. You are not required to answer questions and will not affect your ability to receive services.

The basic information that should be requested is as listed below. The required information that organizations should also be reporting/ recording is listed in the table below as if it is a VOCA or FVPSA requirement or an additional recommendation.

- First and Last Name or an Assigned Agency Number that the agency can use to identify the client's first and last name.
- Client MAVIS or Identification Number
- In-take Date
- Signature of Advocate who assisted with the Intake.
- Date of Birth or a place to track the client's age

Reporting

Reporting Guidelines

One of the biggest tools when assessing the services and efficiencies is outcome data. The importance of having consistent and clean data is crucial to identifying areas of need. How this can be achieved is by uniform reporting and management of files/cases. The following section is meant to provide guidance on how this can be achieved.

Assistance with compensation means the number of clients/individuals your organization has assisted with completing a compensation application. Count the number of people who have received any level of assistance with completing the victim compensation application during the reporting period, even if the application was not submitted. Simply providing the person with an application does NOT qualify as

assistance. Each organization that receives VOCA funding must meet the following requirement:

“Help victims apply for compensation benefits. Such assistance may include identifying and notifying crime victims of the availability of compensation, assisting them with the application forms and procedures, obtaining necessary documentation, and/or checking on claim status.”

When counting the total number of individuals who received services during the reporting period, you should count all individuals served by your organization during that period. This number should be an UNDUPLICATED count of people served during the single reporting period, regardless of the number of services they received or the victimization types they presented.

When counting new individuals, they should only be counted the first time they receive services during that reporting period. So for the first reporting period of the grant cycle, ALL individuals should be counted as new. For the first reporting period of each fiscal year (October – December), all people who received services should be counted as NEW to establish a baseline for the year.

Certain types of victimizations can be categorized in many ways. One example is the proper categorization of attempted murder. The proper categorization for attempted murder and other violent assaults should be reported as “Adult Physical Assault,” which includes both simple and aggravated assaults. Aggravated assault includes assaults accompanied by the use of a weapon or by means likely to produce death or great bodily harm.”

The list of victimization types to choose from does not include “teen sexual assault,” but it does include “teen dating victimization.” Teen victimizations not associated with dating qualify as child victimizations, as the definition of “child” includes all minors. Victimization that occurs within a teen dating relationship should be reported as “teen dating victimization.”

FVPSA Outcome DATA

[Domestic violence programs should be collecting outcome information from their clients served. A manual and instructions from the Documenting Our Work Project are available online at the Outcomes webpage from the National Resource Center on Domestic Violence at <http://nrcdv.org/FVPSAOutcomes>. There are two mandated questions that must be asked of clients.

Because of the services I received, I feel:

- I know more about community resources (yes or no).
- I know more ways to plan for my safety (yes or no).

Outcome information may be collected for each service – shelter, support services and advocacy, counseling and support group. However, at a minimum, FVPSA requests outcome information on shelter services from programs that provide shelter services.

For each service, count the number of surveys completed and the number of yes responses to each question. It is expected that the number of surveys

completed would be the same for each, but there may be instances when it differs, e.g., a client doesn't answer one of the questions.

- I know more about community resources (Resource Outcome).
- I know more ways to plan for my safety (Safety Outcome).]

VOCA Reporting Assistance

Correctly reporting statistics and numbers is one of the most important aspects of grant management. The reporting trends is what is analyzed to see what demographics may be missed with services or if there is an increase in certain violent crimes that victims are seeking services for. The following are helpful hints and tips to ensure that proper reporting is taking place during the grant cycle.

Population Demographics

Number of individuals who received services during the reporting period.

Count all individuals served by your organization with the use of VOCA plus match funds during the reporting period. This number should be an unduplicated count of people served during a single reporting period, regardless of the number of services they received or victimization types with which they presented. Do NOT count anonymous contacts here. They should be reported in the following question.

Total number of anonymous contacts received during the reporting period.

Count all anonymous contacts receive dby your organization through a hotline, online chat, or other service where the individuality of each contact cannot be established.

Of the number of individuals entered, how many were NEW individuals who received services from your agency FOR THE FIRST TIME during the period?

This number should be an unduplicated count of identified NEW clients served during a single reporting period, regardless of the number of services they received or the

victimization types with which they presented. *For the first reporting period of your subaward, all individuals should be counted as new.*

Individuals who self-report in more than one race and/or ethnicity category should be counted in the “Multiple Races” category. This data is used for statistical purposes to comply with Federal regulations.

American Indian or Alaska Native
Asian
Black or African American
Hispanic or Latino
Native Hawaiian or Other Pacific Islander
White Non-Latino or Caucasian
Some Other Race
Multiple Races
Not Reported
Not Tracked

Of individuals who received services, it should be documented how many presented with more than one type of victimization during that reporting period

Direct Services

Count the number of individuals who received assistance with completing a victim compensation application during the reporting period, even if they did not submit the application. Simply providing an individual with an application does **NOT** qualify as assistance.

Because some clients may receive multiple services, the total number of times that services were provided within a category may be greater than the number of clients who received those services.

Sample Policies

The following policies were created by SDVS as examples of compliant policies based on requirements detailed in this document. Please note, it is not required that your

policies look identical to these. These sample policies are meant to be used as a tool if your organization is needing assistance developing a new or updated an old policy. Any questions or concerns should be directed to SDVS.

Match Donation Value Guide

Most of South Dakota Victims' Services grant programs require agencies that receive funding to "match" that funding with additional dollars or in-kind resources. Matches must be a contribution of non-federal dollars, in-kind services, or a combination of both. Additional information about match requirements can be found in the DOJ Grants Financial Guide (https://ojp.gov/financialguide/doj/pdfs/DOJ_FinancialGuide.pdf).

Programs may not use federal funds from other programs to meet match requirements. However, State or local funds, or funds contributed by the private sector, may be used as match.

The exception to this is that DASA funds cannot be used as match.

- Cash, goods, services, or in-kind time used to match one federal grant may not be used to meet match requirements for another federal grant.
- In-kind match consists of donations to support services and activities that are not cash, such as furniture or equipment that can be quantified in dollars. It can also be the value of time contributed by volunteer professionals, technical personnel, and other skilled and unskilled labor, if the services they provide are an integral and necessary part of grant-funded services and activities. The value placed on donated services must be consistent with the rate of compensation for similar work paid for by the program. South Dakota Victims' Services has set a match rate of \$25.43 per hour for individuals who \$25.43 per hour also should be used for volunteers who provide unskilled labor.

All funds designated as match are restricted to the same use as the federal grant funds they are matching. For example, a program may match a South Dakota Victims' Services grant with funds that are used to provide direct services to victims, but not with funds that are used for administration of programs, lobbying, etc. **Volunteer time spent on administrative duties, as well as time donated for fundraising cannot be used as match.**

Programs must maintain records that clearly show the source, amount, and period during which the match was allocated. South Dakota Victims' Services requires monthly reporting and drawdowns for grant-funded activities, so match should be calculated and reported monthly. The basis for determining the value of personal services, material, equipment, and space and facilities must be documented. Volunteer services must be documented and supported using the same methods the agency uses to track and report time of its paid employees.

Examples of allowable match contributions include, but are not limited to:

- Cash – the value of direct expenses for grant-funded services and activities.
- Volunteer Professional and/or Personal Services – services must be necessary to the grant-funded activities and the value of volunteer time must utilize a rate of no more than \$25.43 per hour.
- Donated Materials/Equipment – the value claimed for donated items may not exceed their fair market value. ***A Donation Value Guide has been included for reference of calculating donated materials.***
- Space and Facilities – the value claimed for space and facilities may not exceed the fair market rental value of a comparable space and facilities in the same locality; if claiming match for space and facilities, the space and facilities cannot

be owned by the agency receiving the South Dakota Victims' Services grant funds. South Dakota Victims' Services Combined Grant Application Instructions.

- Discounts (applies only to Counseling Agencies) – the discounts or reductions in the cost of provider services must be valued as the difference between the rate the agency paid and what the provider's nominal or fair market rate is for his/her service.

It is crucial to ensure proper documentation is maintained in regard to match contributions. When documenting donations that are received for in-kind match, the program must provide Victims' Services with an itemized donation list verifying how the amount being reported was determined. If the program does not have a document or form it is currently using, please contact Victims' Services and one can be provided. An example of what is being requested to be provided for documentation is below.

Victim's Services Donation Log					
Date	Individual Donating	Quantity	Item	Size	Approximate Value of Donation
00/00/0000	John Doe	1	Blanket		\$ 10.00
00/00/0000	John Doe	5	Towel		\$ 15.00
00/00/0000	Jane Doe	1	Bed	Full	\$ 125.00
		7			\$ 150.00

If a brand new item is donated, the program should maintain the receipt, tag or other verification of original purchase price. Another acceptable form of documentation would be photographing the item with the tag on it with the price easily visible.
