STRATEGY and TACTICS PRACTICAL ASSIGNMENTS

Complete a Pre-plan (Drawings, pictures, aerial views, etc.)

Complete a Command flow chart for your area
(Who do you contact? What steps need to be followed?)

Provide a copy of your SOP, SOG, or Best Practices for your
Departments Response Area.

Develop an IAP for a larger event within your response area.

Develop a Risk/Benefit Flow Chart

The Practical Assignments need to be completed before a student can take their final exam.

The instructor will need to work with their students to have their Practical Assignments completed in a timely manner.

Students will need to provide information on the Practical Assignments from their department's standards.

Completed Practical Assignments and information utilized to complete the above practical assignments need to be attached to you **Attendance Card** for review by the testing Fire Marshal.
