Topics include analyzing and understanding the fire department's people, processes and culture. At the conclusion of the course, participants will have practical guidelines, customized to their organization, which can be immediately implemented upon returning home.

WHY MUST I BE THERE: Because this course is facilitated by Chief Officers with real life expertise and because the curricula was developed by nationally-recognized fire service leaders from volunteer and combination departments across the United States with technical support provided by the U.S. Fire Administration – you won't get a more thorough education anywhere..... **AND it's local for a nominal cost!!**

Class cost is \$40.00 per student.

Class limited to 40 individuals. Preregistration is required for this class at the following link:

FROG (Fire Rescue Organizational Guidance) is a "graduate" level course going into more depth on some of the topics that we initially discussed during the VCOS's Beyond Hoses & Helmets course. This course focuses on three stratagems necessary in all successful organizations: (a) managing the processes, (b) leading the people, and (c) creating intentional organization culture. Don't expect to be told what to do but expect to be shown through facilitated discussions and hands-on exercises.
